Today every use of force incident is scrutinized frame by frame on a video and judged by untrained individuals creating distrust and false narratives. Our Field Training Officers are our PRIMARY coaches and INSTRUCTORS but are often not any more trained in de-escalation and use of force than the recruit they are training. De-escalation strategies, use of force mitigation, analysis, investigation, and training is a complex continually evolving issue. This 2-day training session is designed for Field Training Officers. The training will examine how to apply de-escalation strategies in the real world, how to document those de-escalation tactics, and force mitigation strategies. How to make use of force decisions, select appropriate actions and report accurately.
