Today every use of force incident is scrutinized frame by frame on a video and judged by untrained individuals creating distrust and false narratives. Use of force analysis, investigation, and training is a complex continually evolving issue. This 2-day training session is designed for Police Leaders who, review, report, instruct, or investigate police use of force incidents. The training will examine the most recent and up to date issues that **specifically impact Leaders, IA investigators, and Trainers concerning police use of force incidents.** This course breaks down multiple issues ranging from daily officer citizen complaints, curriculum design, use of force reporting, tracking and trending, and investigation involving police use of force encounters. Instruction uses lectures, case studies, and demonstrations.
